

August 11, 1942

Lt. Col. John T. Greenbach  
Military Intelligence Service  
Room 2011, Munitions Bldg.  
Washington, D. C.

Dear Colonel:

I have your August 7th letter and have asked Mr. Sellar to mail direct to you the frequency files loaned to you by the P.I.C. I gather there is no further use for them at the moment and, if we need them again, we may re-borrow them from the P.I.C.

On the matter of the duplicate set of active frequency files which you say were prepared for your own use at P.I.C., I wish you would take this up directly with Col. Goodfellow, as you suggest in your letter, because I did not know any work being done at the P.I.C. Company was for other than O.C.C. use. We obviously need a file there, and the question of making a duplicate to be used elsewhere is up to Col. Goodfellow to decide; not for me.

Sincerely,

Lawrence W. Lowman,  
Major, MSC
